

FACTSHEET

École normale supérieure Paris-Saclay 2018-2019

École normale supérieure Paris-Saclay is a leading institution of Higher education whose mission is to train teaching researchers, researchers and graduate-level course instructors through research-oriented master's programs. The institution's **12 teaching departments** and **14 research units** focus on three main areas: basic sciences, engineering, sciences and human and social sciences. Students may be admitted to ENS Paris-Saclay in two ways:

the first one is through a competition in which the qualifying applicants obtain the status of civil servant interns (known internally as « normaliens-élèves »); and the second is through an assessed application process in which the qualifying applicants obtain the status of students (known internally as « normaliens-étudiants »). The four years of instruction, including high-level scientific and cultural training, lead to European bachelor's, master's and PhD degrees.

École normale supérieure de Cachan became École normale supérieure Paris-Saclay, operating name of ENS Cachan, since September 2016. Our new building is currently under construction (picture above). We will move to the “Plateau de Saclay” (30 kms from Paris) in 2019.

This relocation will enable us to join most of the other members of Université Paris-Saclay.

PARIS WILL HOST THE 2024 OLYMPIC GAMES:

The International Olympic Committee awarded Paris as the 2024 Olympic Games host. 2024 will mark the 100-year anniversary of its previous hosting. As President Macron stated the games “represent a tremendous opportunity to assist in the transformation of the country, to increase its international attractiveness, and strengthen the role of sport across France”.

In 2024 two million visitors are expected (including 10,000 athletes, 20,000 reporters and the staff of each delegation). Famous Paris venue such as Roland Garros, Champs de Mars, Grand Palais, Château de Versailles will host several tournaments.
