Improve language skills

The **Erasmus +** international mobility is possible thanks to agreements signed by our Schools and Departments with other universities abroad.

Each agreement sets: number of students that can participate, duration of the stay and academic area.

All activities and courses completed abroad and the respective ones to be recognised in Padova at the end of mobility are defined through the *Learning Agreement*, a contract signed by the student and the academic coordinators of the institutions involved.

The coordinator for the Erasmus+ agreements at dSEA is prof. Ambra Galeazzo.

How to choose your destination(s)

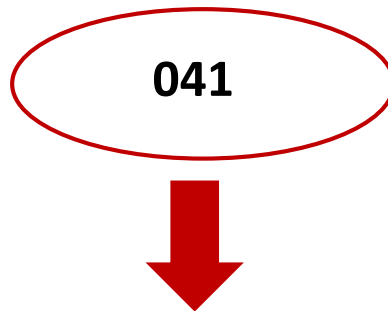

List of partners: unipd.it/mobility-agreements

On the «Study plan» menu, select your degree course

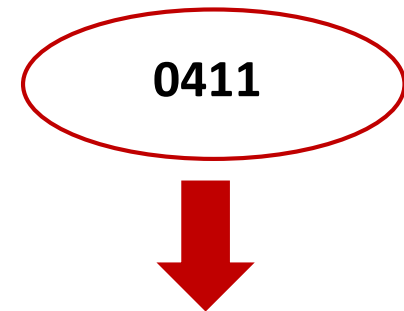

Agreements are identified by a subject code:

Economics

Business administration

Accounting and taxation

NB: partners with two separate agreements/areas are considered as 2 destinations!

- **Granada** - E GRANADA01: **20 Master students** 6 months
- **Graz** - A GRAZ01: **6 Master students** 5 months
- **Lipsia** - D LEIPZIG01: **2 Master students** 6 months
- **Vilnius** - LT VILNIUS01: **2 Bachelor students** and **2 Master student** 5 months

1. Non-academic conditions: country, city, living costs, services provided by partner institution
2. Careful check on exams planned for my last year at UNIPD according to the study plan
3. Analysis of the partner's academic offer (exchange students section of partner's website), course units available Master level, terms of the **application**, calendar, language and other requirements
4. Contact partner offices in case of doubt

When applying you can choose up to 3 destinations sorted by priority.

All the candidate's options are considered for the ranking of each relevant destination, which is sorted by score.

Winners are declared as such and assigned to **only 1 destination** per call.

Priority is taken into account when a candidate results among the winners in more than one ranking.

Candidates with no grant/destination assigned become eligible for all the 3 optioned destinations provided the application has been effectively completed.

Eligibility assures the candidate the place in a waiting list and to take over a selected student in case of withdrawal.

Let's imagine we have 5 candidates (A, B, C, D, E) and 4 destinations with 1 spot available for each of them:

Copenhagen	 A (90 points; priority 1)	B (85; 2)	D (75; 1)	E (60; 1) <u>ELIGIBLE</u>
Oslo	A (90; 3)	 B (85; 1)	D (75; 2)	E (60; 2) <u>ELIGIBLE</u>
