

# The UK's points-based immigration system

## An introduction for EU students

# The UK's points-based immigration system: An introduction for EU students

Please note that 'EU citizens' referred to in this guidance should be read to include EU, EEA and Swiss citizens. Those resident in the UK by 31 December 2020 should apply to the EU Settlement Scheme and have until 30 June 2021 to make an application.

The UK left the European Union on 31 January 2020. Free movement between the UK and the European Union ended on 31 December 2020, and on 1 January 2021, the UK implemented a points-based immigration system that prioritises skills and talent over where a person comes from.

If you were not resident in the UK by 31 December 2020 and do not have rights under the Withdrawal Agreement, you will need to meet specific requirements in order to work or study in the UK from 1 January 2021. You will also need to pass relevant checks, including UK criminality checks. You can continue to visit the UK for up to six months without applying for a visa and may participate in a wide range of activities, including tourism, visiting family and friends, short-term study and business-related activities, such as events and conferences.

Irish citizens' status continues to be protected as part of **Common Travel Area arrangements**. Therefore, Irish citizens do not require permission to come to the UK (except in a very limited number of circumstances), and as a result, are not eligible to apply under the new points-based immigration system.

The UK has a world-leading education sector and continues to welcome talented and high potential students to universities, further education and English language colleges, and independent schools. There is no limit on the number of international students who can come to the UK to study, and the UK is seeking to increase the number of international students in higher education.

We have made it easier for the best international graduates to secure skilled jobs in the UK and contribute to the UK's economic growth with our new Graduate visa. It allows international students who complete undergraduate and master's degrees in the UK to stay for two years and those who complete a PhD to stay for three years. The Graduate visa will be introduced in the summer of 2021.

## EU Settlement Scheme

If you were resident in the UK by 31 December 2020, you should not apply for a visa under the points-based immigration system. You and your family should instead **apply to the EU Settlement Scheme**. Applications are free and the deadline for applying is 30 June 2021.

## Student route

If you are aged 16 or over, you may be eligible to apply for a **Student visa** to study in the UK at a registered sponsoring institution. The full register of **sponsoring institutions** is online on GOV.UK.

To be eligible to apply for a Student visa, you need to be able to score 70 points. Points are non-tradeable, which means you will need to meet all the requirements.

To be eligible for a Student visa, you must demonstrate that:

- you have an unconditional offer from an approved sponsoring institution. When you apply for a Student visa, you will need to provide your reference number from the Confirmation of Acceptance for Studies (CAS), which is provided by your education provider once they've offered you an unconditional place on a course
- you are taking a course that leads to an approved qualification at an appropriate level of study
- you have any relevant academic qualifications needed to undertake the course
- you genuinely intend to study in the UK
- you can financially support yourself during your studies in the UK
- you can speak, read, write and understand English to the required standard for the level of course you intend to study.

In addition to this, you will need to demonstrate the following if you are under 18:

- proof of parental or other legal guardian(s) consent and their relationship to you
- suitable care arrangements are in place for you in the UK.

## Applying for a Student visa

You can apply for a **Student visa** up to six months before your intended course starts. As part of your application, you will need to verify your identity. Most people will be able to do this using a smartphone, through the 'UK Immigration: ID Check' app, as part of the online application. This will enable a smoother journey and will allow you to have a fully online experience.

To do this, you will need a **biometric passport and a compatible smartphone**. The app is free and is compatible with Android phones and iPhone 7 or newer models. If you do not own a compatible phone, you can use the app from a family or friend's mobile phone. No information is stored on the phone or app after you close it.

If you do not have a biometric passport or access to a compatible smartphone, or if ID verification through the app is not yet available for the route you are applying through, you will need to attend a **Visa Application Centre**. You should still start your application on **GOV.UK**. If you are directed to attend a Visa Application Centre you will be given further information about this process and what documents you will need to provide upon your visit.

## Receiving a decision

If you use the 'UK Immigration: ID Check' app and are successful in your application, you will receive written notification by email. This will include details of how to sign in to the **View and Prove** service on GOV.UK, where you can check your immigration status and its conditions at any time.

The View and Prove service can also be used to share and evidence your rights in the UK at any time – such as the right to work or study – by giving organisations or people, such as employers or universities, access to the relevant information about your immigration status. This is a fully secure, simple service which enables you to view up to date information about your immigration status at any time. You will receive your digital immigration status instead of a physical visa or permit card.

If you complete identity verification at a Visa Application Centre and are successful in your application, you will receive a sticker (called a vignette) in your passport and will be granted a **Biometric Residence Permit** after your arrival in the UK. This will allow you to use some online services on GOV.UK, such as evidencing your right to work.

When making your journey to the UK, you will need to travel with the same document you made your application with. From 1 October 2021, you will not be able to use an ID card to enter the UK. You will need to provide a passport.

You must apply and receive confirmation that your visa application has been successful before you travel to the UK.

More information about the **application process** can be found on **GOV.UK**

## Fees

A Student visa costs £348 if applied for outside of the UK, and you must pay the same amount for any dependants.

You will need to pay the **Immigration Health Surcharge** as part of your application, which gives you access to the UK's National Health Service on generally the same basis as a UK permanent resident. As a student, you will receive a 25% discount on the Immigration Health Surcharge. The discounted Immigration Health Surcharge is £470 for Student visa holders.

## Dependants

If you are studying at master's level or above on a course lasting nine months or more, or you are a UK Government sponsored student on a course lasting six months or more, you are entitled to bring **dependants** when you apply to study in the UK. A dependant may include:

- your spouse
- your unmarried partner with whom you have a subsisting relationship
- your child under 18 years old.

A separate application must be made for dependants. The same fees and Immigration Health Surcharge apply.

## Booking your travel

We advise you not to confirm any travel arrangements until your visa application to study in the UK has been approved. The **processing times for applications** vary depending on the visa you are applying for and the service available. You must apply and receive confirmation that you have been successful, before you travel to the UK.

When making your journey to the UK, you will need to travel with the same document you made your application with.

## Working while studying in the UK

Depending on the level of study and your sponsoring institution, you may be able to take up part time work in the UK alongside your studies.

The table below sets out the number of hours you can work depending on the type of study you wish to undertake.

Type of study	Employment conditions
<p>Student following a full-time course of degree level or above study:</p> <ul style="list-style-type: none"> <li>• sponsored by a higher education provider with a track record of compliance; or</li> <li>• sponsored by an overseas higher education institution to undertake a short-term study abroad programme in the UK</li> </ul>	<p>20 hours per week during term-time (full-time employment permitted outside of term-time)</p>
<p>Student undertaking a full-time course below degree level study sponsored by a higher education provider with a track record of compliance</p>	<p>10 hours per week during term-time (full-time employment permitted outside of term-time)</p>
<p>All other study, including all part-time study</p>	<p>No employment permitted</p>

## After your studies

If you successfully complete a degree at undergraduate level or above in the UK, you will be able to apply for a Graduate visa to stay and work or look for work for a maximum period of two years (three years for PhD students) after completing your studies.

This visa route will open in summer 2021 to international students who complete a course at a higher education provider, with a track record of compliance with the UK Government's immigration requirements.

You will also be able to move into different visa routes if you have a suitable job offer from a sponsor and can meet the requirements of a route.

## Child Student visa

There is a separate visa route for child students. You may be eligible to apply for a **Child Student visa** if you are aged between 4 and 17 years old and can demonstrate:

- proof of parental or other legal guardian(s) consent and their relationship to you
- suitable care arrangements are in place for you in the UK
- you are at least 4 years old and under 18 years old and studying at an independent school
- you genuinely intend to study in the UK, if you are 16 years or older
- you meet academic ability and maintenance requirements
- you have an unconditional offer from an approved sponsoring institution. When you apply for a Child Student visa, you will need to provide your reference number from the Confirmation of Acceptance for Studies (CAS), which is provided by your education provider once they've offered you an unconditional place on a course.
